📍 Alexandria, Egypt

## SUMMARY

Driven by a lifelong passion for programming, I've accumulated almost a decade of experience through diverse projects. As I conclude my college journey, I'm eager to apply my expertise to new challenges.

## EXPERIENCE

**Intern** 08/2021 - 02/2022  
Oracle

In my pursuit of knowledge and to further strengthen my knowledge and mastery of databases, I undertook an internship at a top-tier database company. In order to absorb knowledge that would take me one step further in my career.

**CTO** 09/2021 - 08/2021  
Crown Software

Led four high-performing teams to overcome complex technical hurdles. Delivered innovative solutions that aligned with company objectives, leveraging cutting-edge technology to create sophisticated, cohesive projects.

**Freelancer** 03/2015 - 06/2017  
Upwork

Leveraging my talent and knowledge as a back-end developer, I made it to the top 10% of profiles on Upwork. through achieving customer satisfaction and bringing the smartest software solutions that met the market criteria at the time.

## EDUCATION

**Software Engineering** 09/2020 - 12/2025  
Alexandria University - Bachelor of Science

I was at the top of my class with a 3.9 GPA due to my excessive knowledge that I acquired prior to college. I gained a head-start over all my peers and finished many graduation projects as a bonus as early as my second year.

## SKILLS

|                   |          |                 |        |
|-------------------|----------|-----------------|--------|
| Git               | Expert   | PHP             | Expert |
| Cloud Computing   | Advanced | MongoDB         | Expert |
